

FAQ - Frequently Asked Questions

Artificial Turf Systems

How do I decide which type of Turf is best for my needs?

Our expert staff can help you to determine the best product for your application. We offer a Product Applications Matrix on the General Info page to help make preliminary assessments. There are many types of turf available to you.

What about installing artificial turf systems?

We offer expert installation services which assure you the best possible work and it will be done in the shortest amount of time - error free. If you chose to install it yourself we offer an Installation Guide on our website.

How long is the delivery time from Deluxe Athletics?

Very short! The delivery time from completion of the order placement to actual delivery is approximately 10-14 days. We deliver via common carriers at competitive rates. We ship our products anywhere within the United States.

Do you provide a warranty on turf systems?

Yes we do! Actual warranties vary for different turf systems and applications. For your review we have a generic warranty statement on the General Info page of this website. Please contact Deluxe Athletics for specific information on your chosen product.

How well does artificial turf wear and last?

Artificial turf products last anywhere from 5-20 years depending on the amount of traffic and severity of use. An athletic field will endure harsh treatment and may need repairs or replacement in 5-6 years while a lawn with light traffic may last as long as 20 years.

What about maintenance with pets?

Pet related maintenance is minimal. An occasional rinsing with a garden hose will alleviate urine odors. Removal of solid deposits is the same as with a natural turf lawn and solid animal waste will not stain artificial grass. Maintenance to replant grass in ruts or trails is eliminated.
